Subject: Energy surcharge February 2023

Rotterdam, January 13, 2023

Dear customer, dear relation,

First of all we would like to take the opportunity to wish you a successful 2023, although the economical and geopolitical situation is challenging.

We hereby want to inform you on the energy surcharge for the period February 1, 2023 until February 28, 2023.

As the energy prices are still very volatile we have decided to adjust the surcharge on a monthly base (instead of the communicated quarter base) in 2023, this to avoid business risks, on your and our side.

As announced with the communication of the 2023 pricing, in 2023 a basic surcharge of € 2,50 per handling is applicable. Depending of the price level of diesel and electricity an adjustment is made according to the schedule which is part of the 2023 pricing communication.

Under this tariff system, the February 2023 energy surcharge is € 3,28, which is determined as shown below.

- + € 2,50 Base surcharge
- /- € 0,64 Diesel component (based on € 1,59/litre)
- + € 1,42 Electricity component (based on € 0,48/KwH)
- + € 3,28 Energy surcharge February 2023**

The surcharge will be invoiced as a separate item on the periodic invoice (date-out is leading).
