

Appendix for METRANS service via Istanbul to General Conditions for container transports in 2024

1. General transport conditions:

- 1.1. The ordering party is obliged to announce any special requirements or permits if they are necessary on the requested transport line.
- 1.2. For all transports from/to Turkey, a special statement requested by the customs authorities needs to be completed. The declaration must be presented at the point of entry/exit from/to EU. If this statement is not provided by the ordering party, the cargo cannot enter/leave the territory of EU.
- 1.3. The unloaded container must be returned to the terminal in clean and undamaged condition. In case any damage occurs or the container is not cleaned, METRANS reserves the right to charge the cost of repair, respectively cleaning.
- 1.4. If the issuing of T1/T2 is secured by METRANS, information such as the HS code, colli, weight and the exact value of the goods has to be indicated for each commodity separately in the transport order.
- 1.5. In case METRANS containers are used for the transport and the trucking in Turkey is done by the ordering party, METRANS reserves the right to determine the depot which the container must be returned to or picked up from.
- 1.6. If the trucking part in Turkey is ensured by METRANS, the **free time for loading/unloading is 12 hours**, after which there is a waiting fee of **EUR 46,-** for every 12 hours. After 3 days, for every 12 hours additional **EUR 75,-** will be applied.
